NEW PORTFOLIO

HI, I'M ANASTASIIA

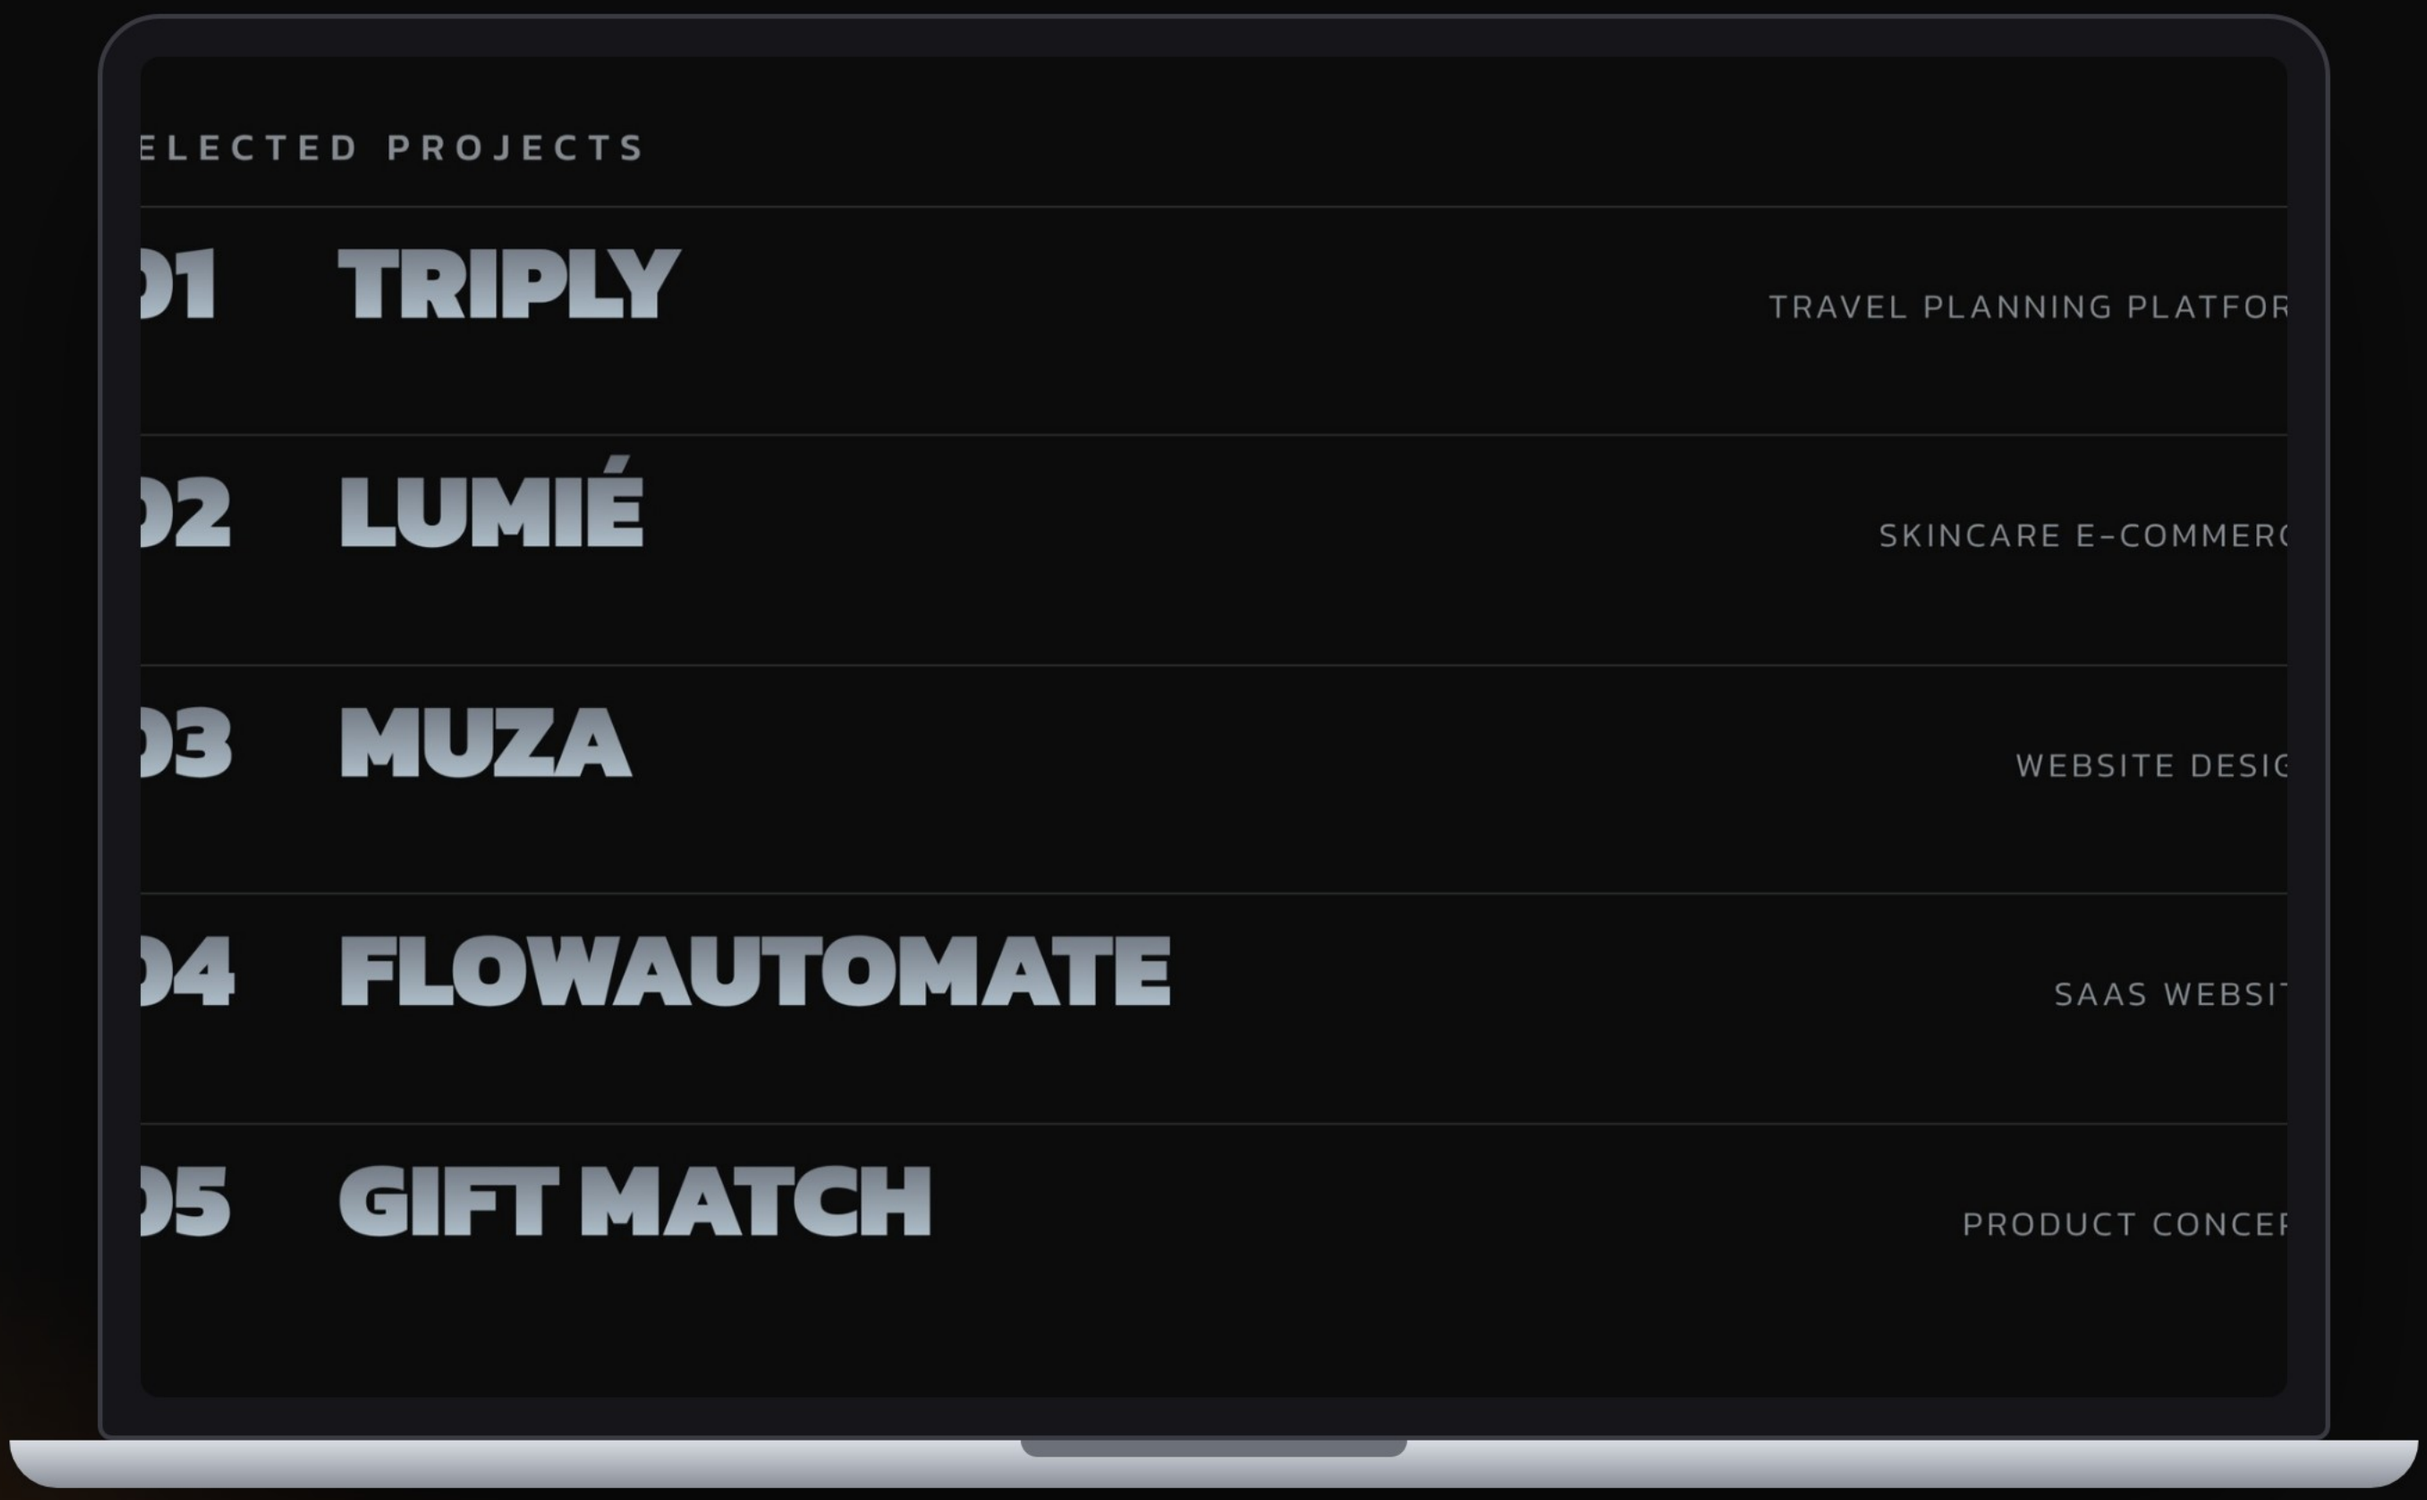

Web & UI/UX designer. My portfolio is an interactive site, designed and built end to end.

THE IDEA

A DESK THAT REACTS TO YOUR SCROLL

- A character greets you and points to the work
- The camera moves into the monitor as you scroll
- The monitor opens the list of projects

HERO IN MOTION

ONE ANIMATION, DRIVEN BY SCROLL

The character’s video is scrubbed by scroll position, forward and back, so it never plays on its own.

THE WORK

WHAT I DID

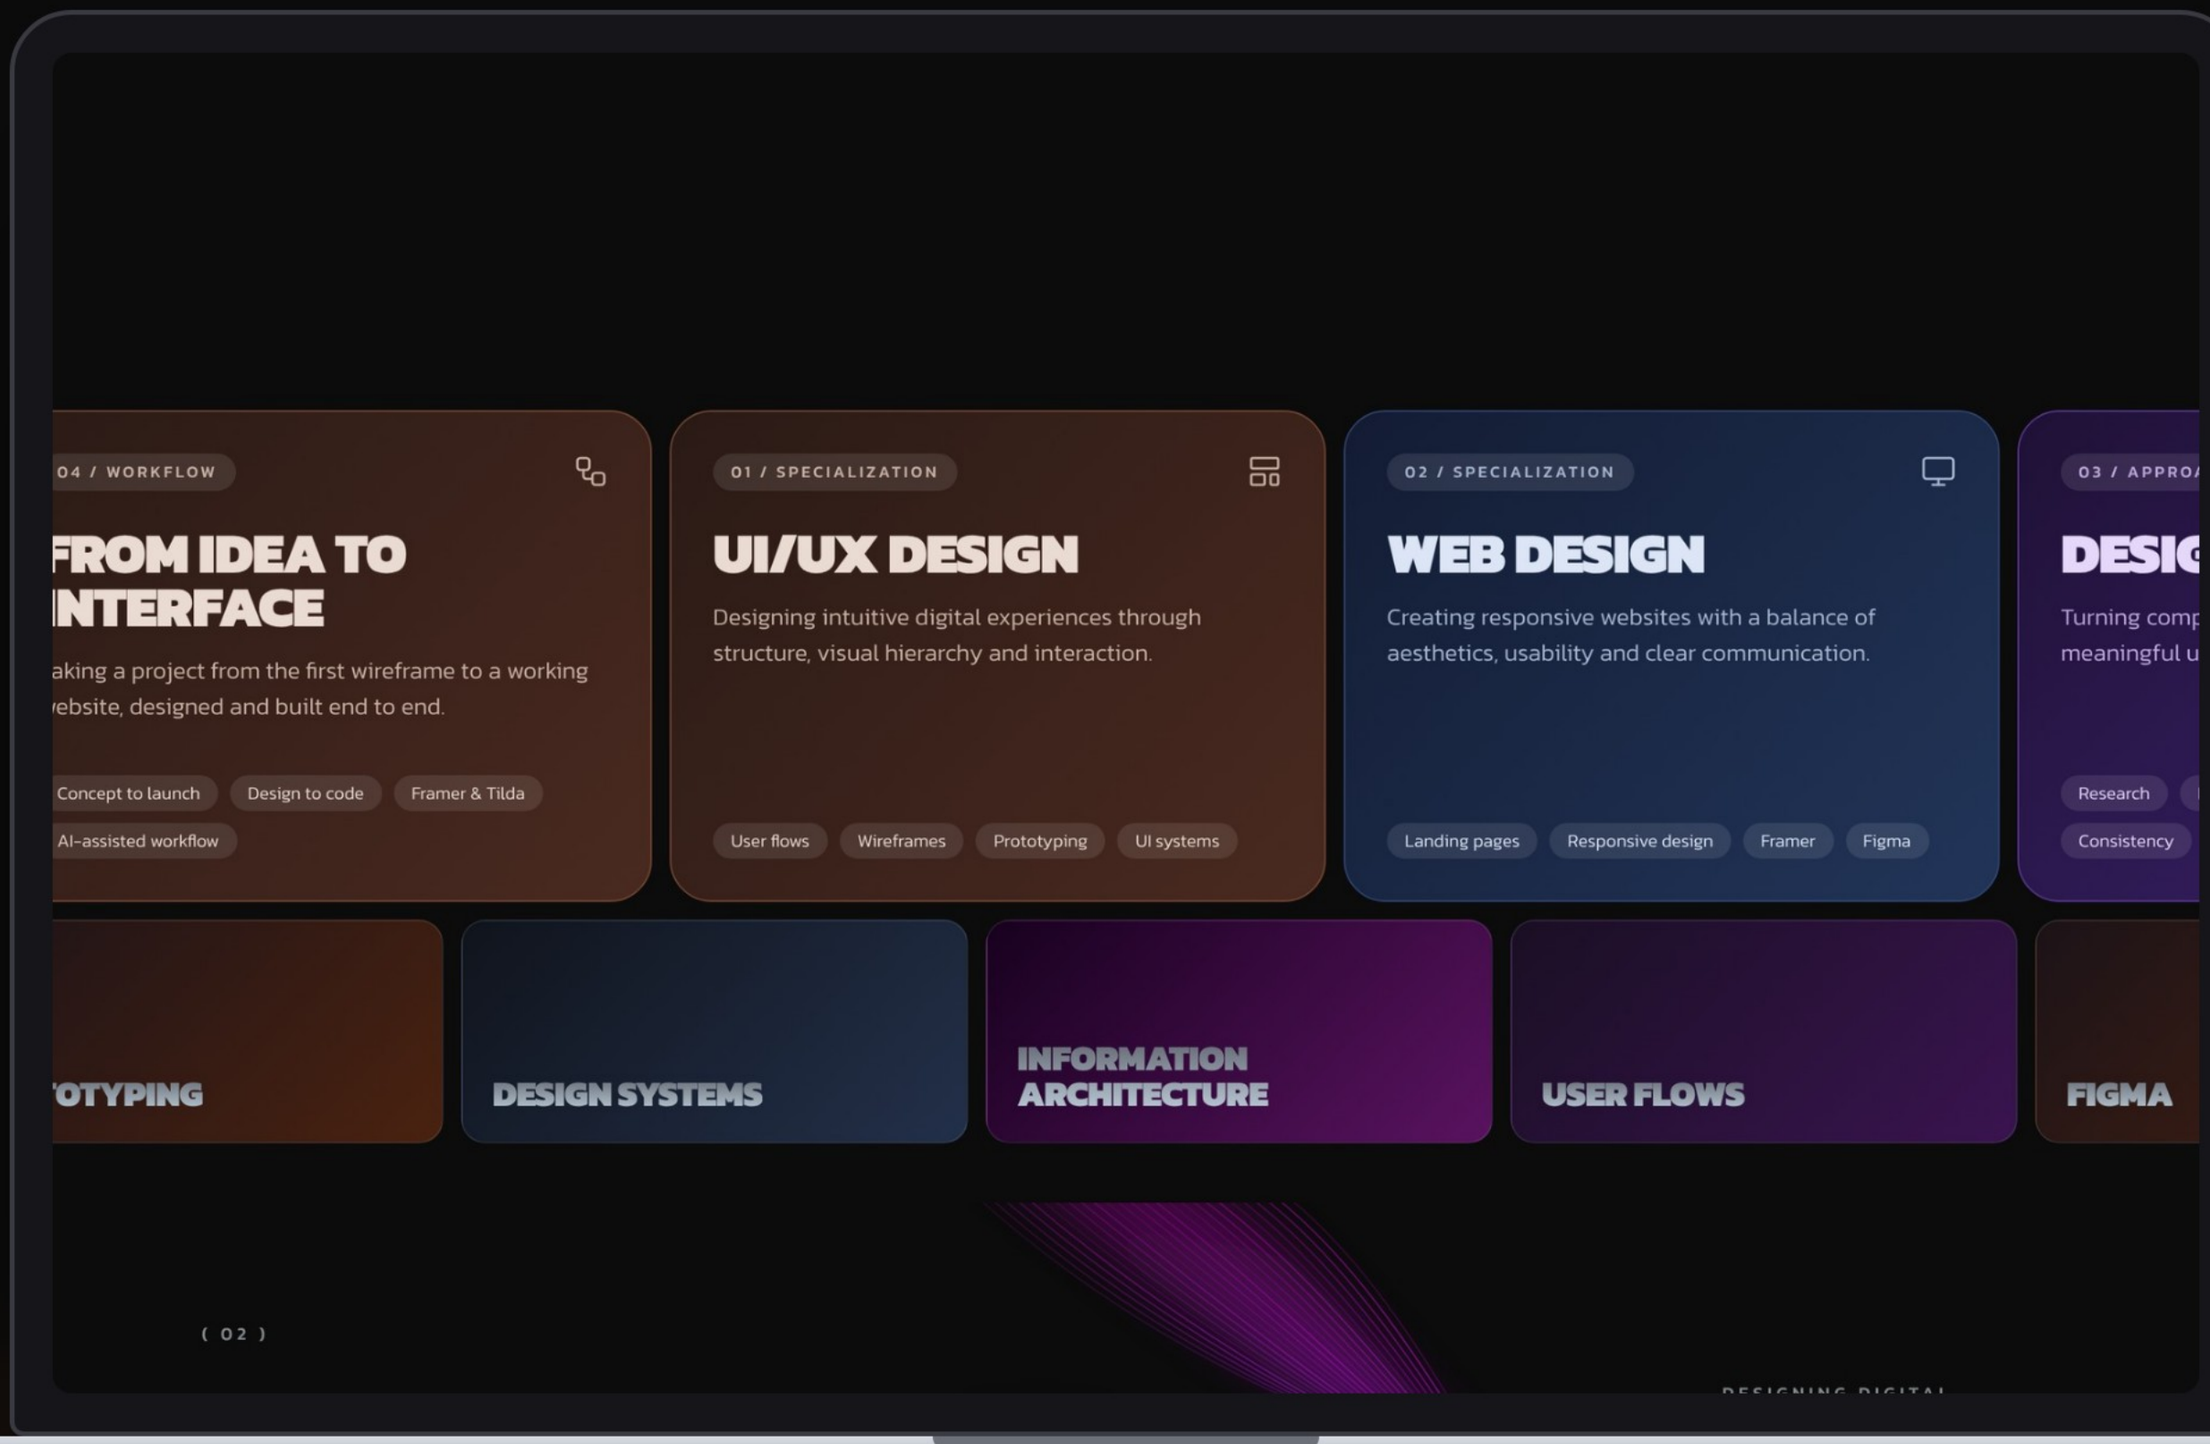

- Concept and art direction of the page
- UI design, typography and motion
- Front-end build: React, TypeScript, Three.js, Framer Motion
- Five case studies written for the projects
- Responsive layouts for desktop, tablet and phone
- Reduced-motion fallback and performance work

REACT TYPESCRIPT THREE.JS TAILWIND

SKILLS AND ABOUT

SKILLS IN RUNNING LINES

Four specialisations and my main tools move across the page, followed by a short about section.

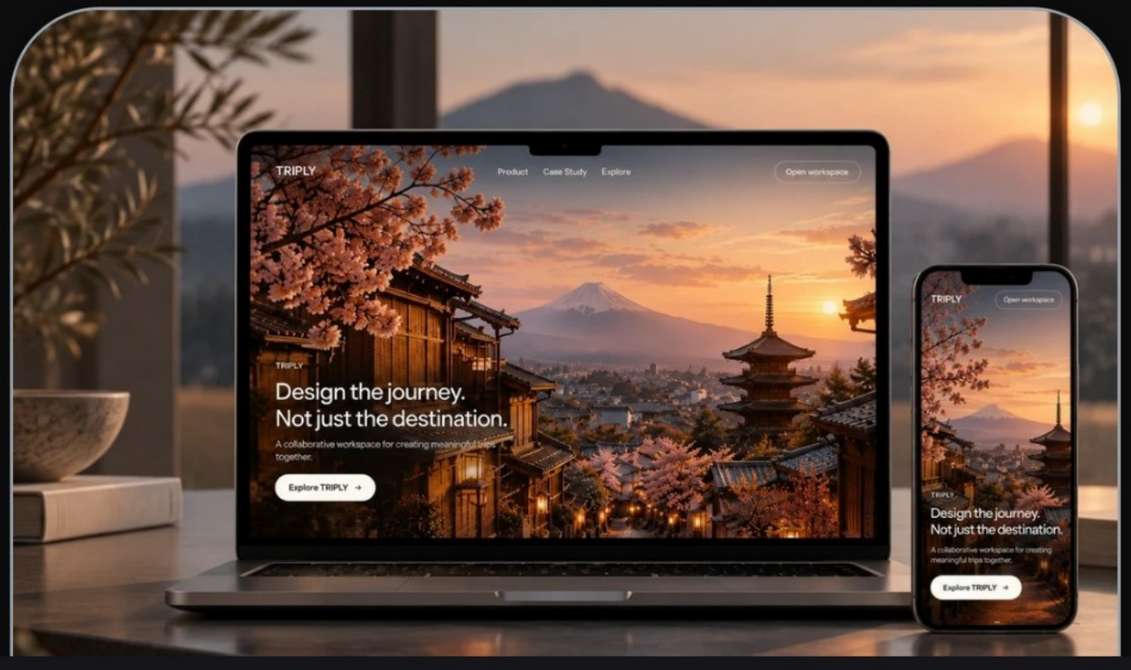

SELECTED WORK

FIVE PROJECTS, FIVE CASE STUDIES

TRIPLY · LUMIÉ · MUZA · FLOWAUTOMATE · GIFT MATCH

PROJECTS

SELECTED WORK · 5 PROJECTS

01

TRAVEL PLANNING PLATFORM / PRODUCT DESIGN

TRIPLY

CONCEPT PROJECT

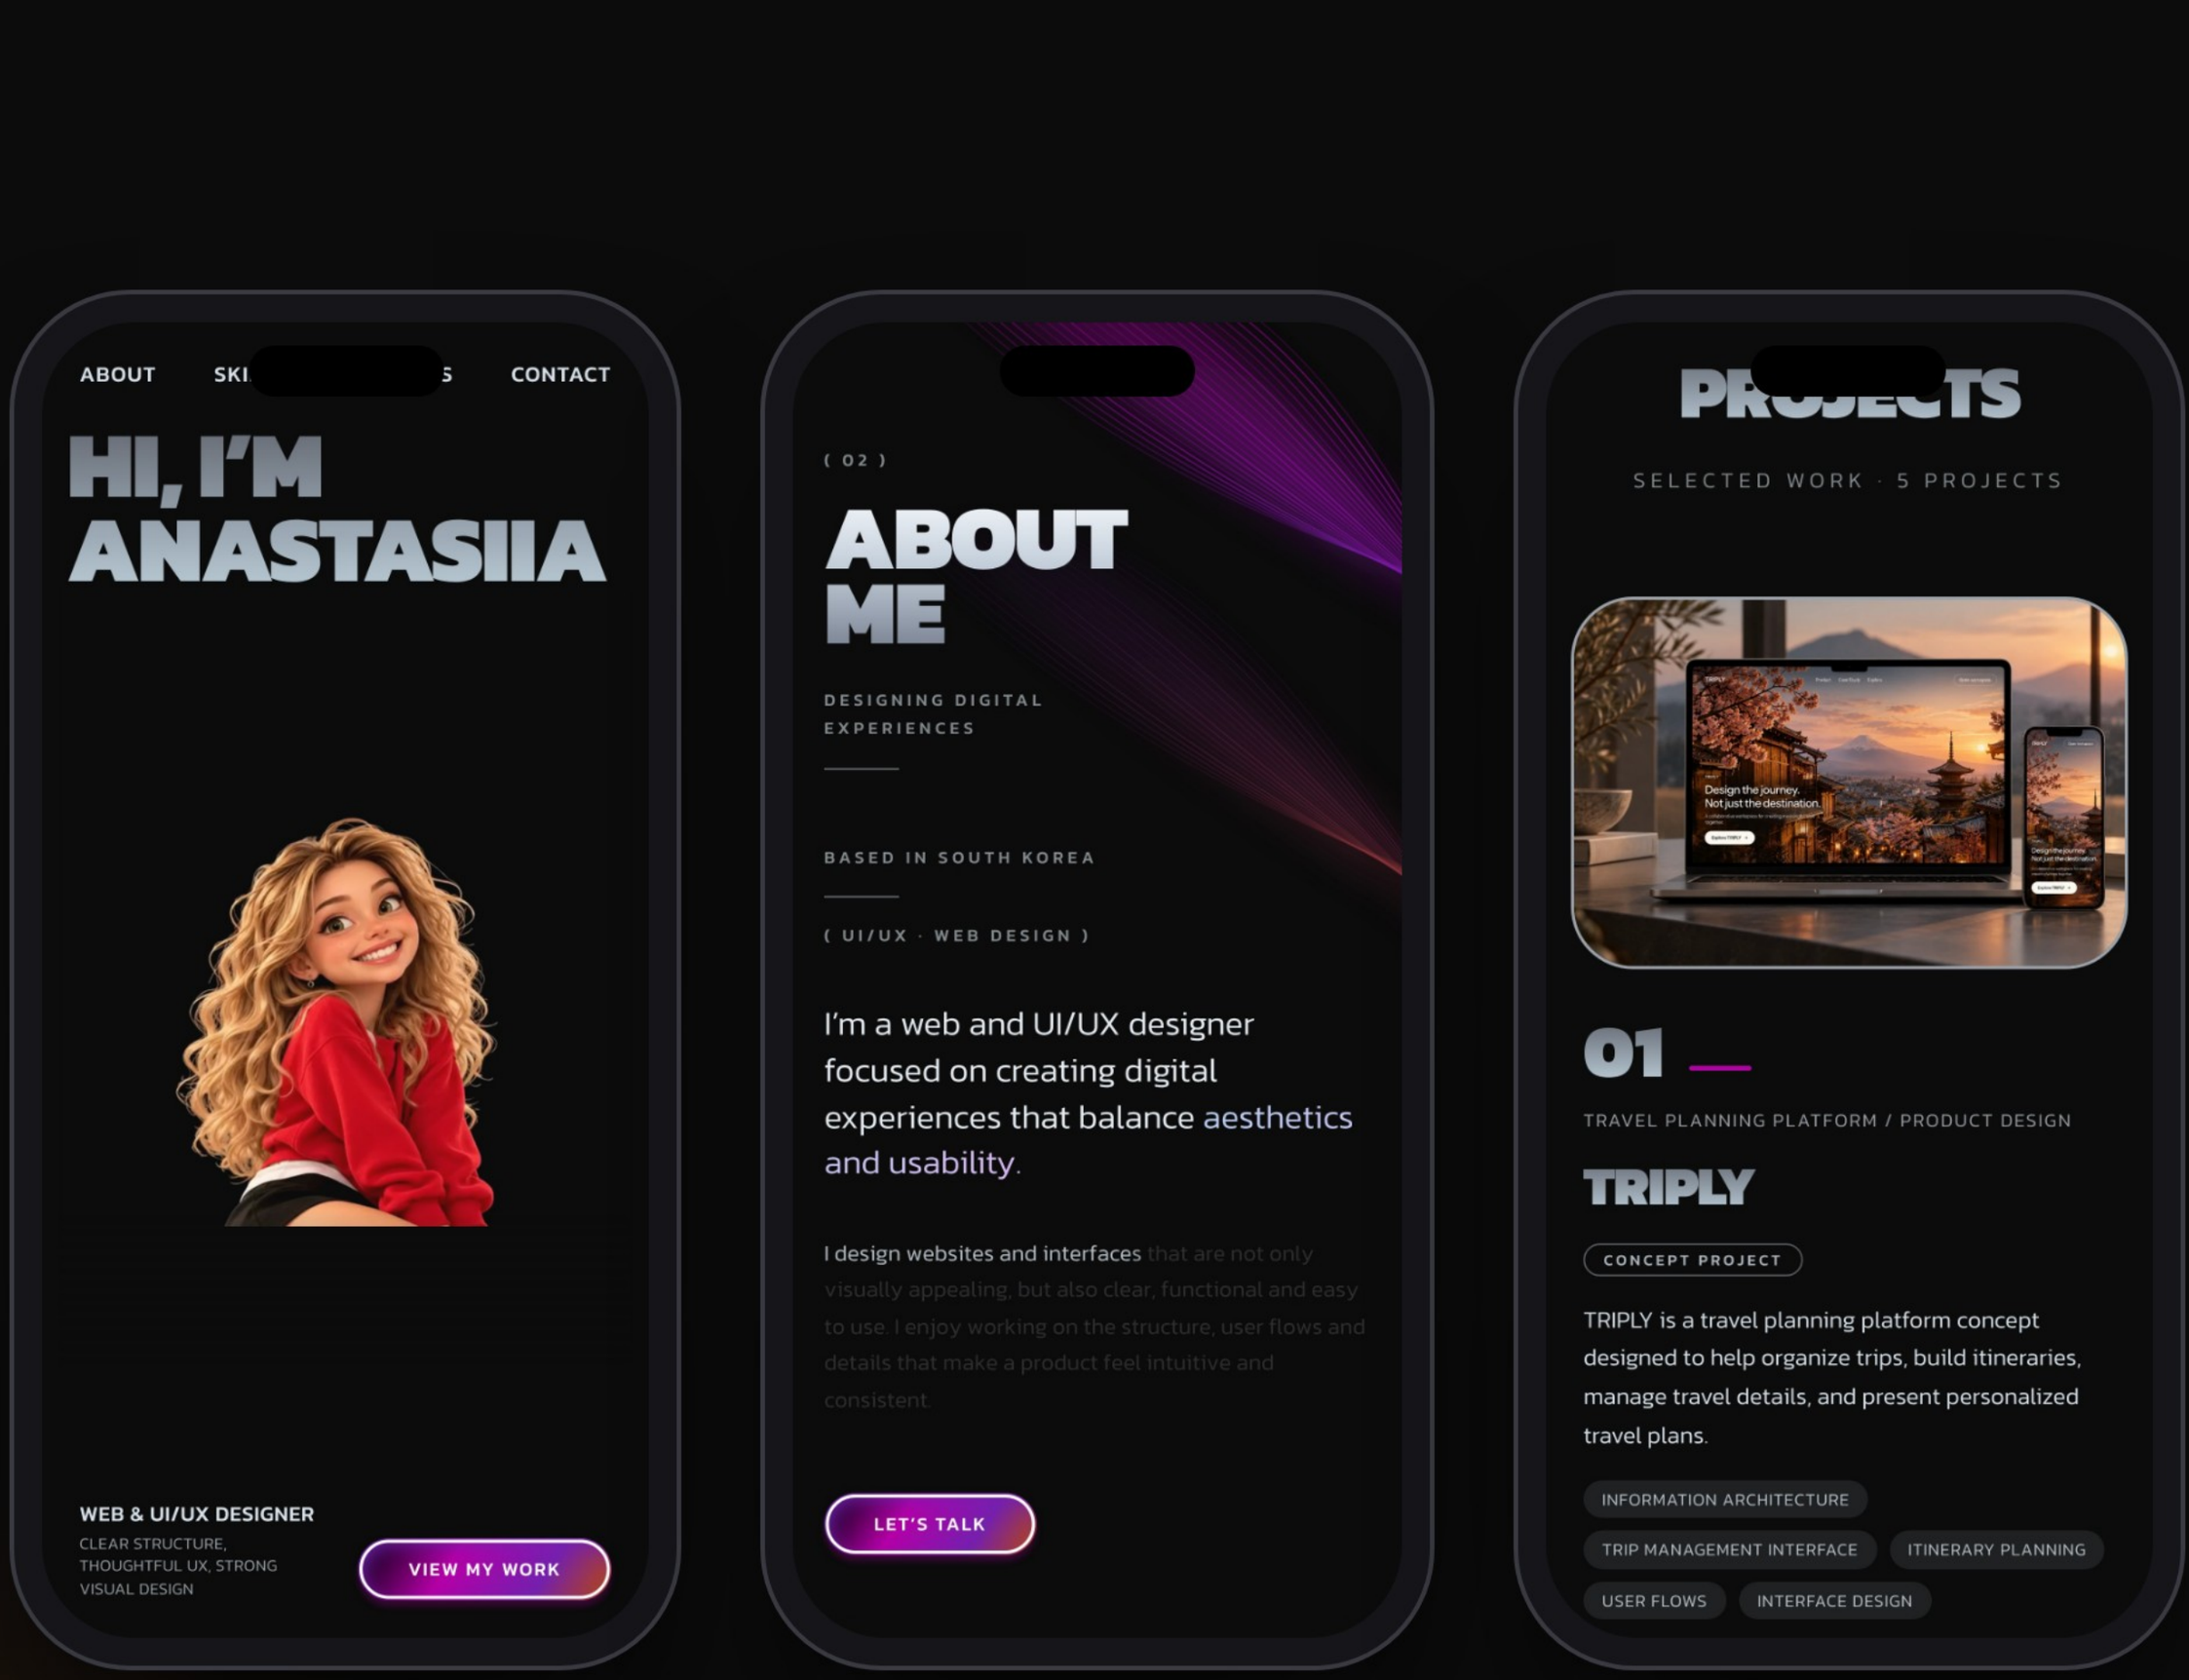

TRIPLY is a travel planning platform concept designed to help organize trips, build itineraries, manage travel details, and present personalized travel plans.

INFORMATION ARCHITECTURE · TRIP MANAGEMENT INTERFACE · ITINERARY PLANNING · USER FLOWS · INTERFACE DESIGN

ON MOBILE

BUILT FOR THE PHONE TOO

On phones the 3D scene gives way to a lighter version of the same story.

LET'S TALK

SEE IT LIVE

Link to the portfolio is in the first comment.
