CASE STUDY · PROTOTYPE

MUZA

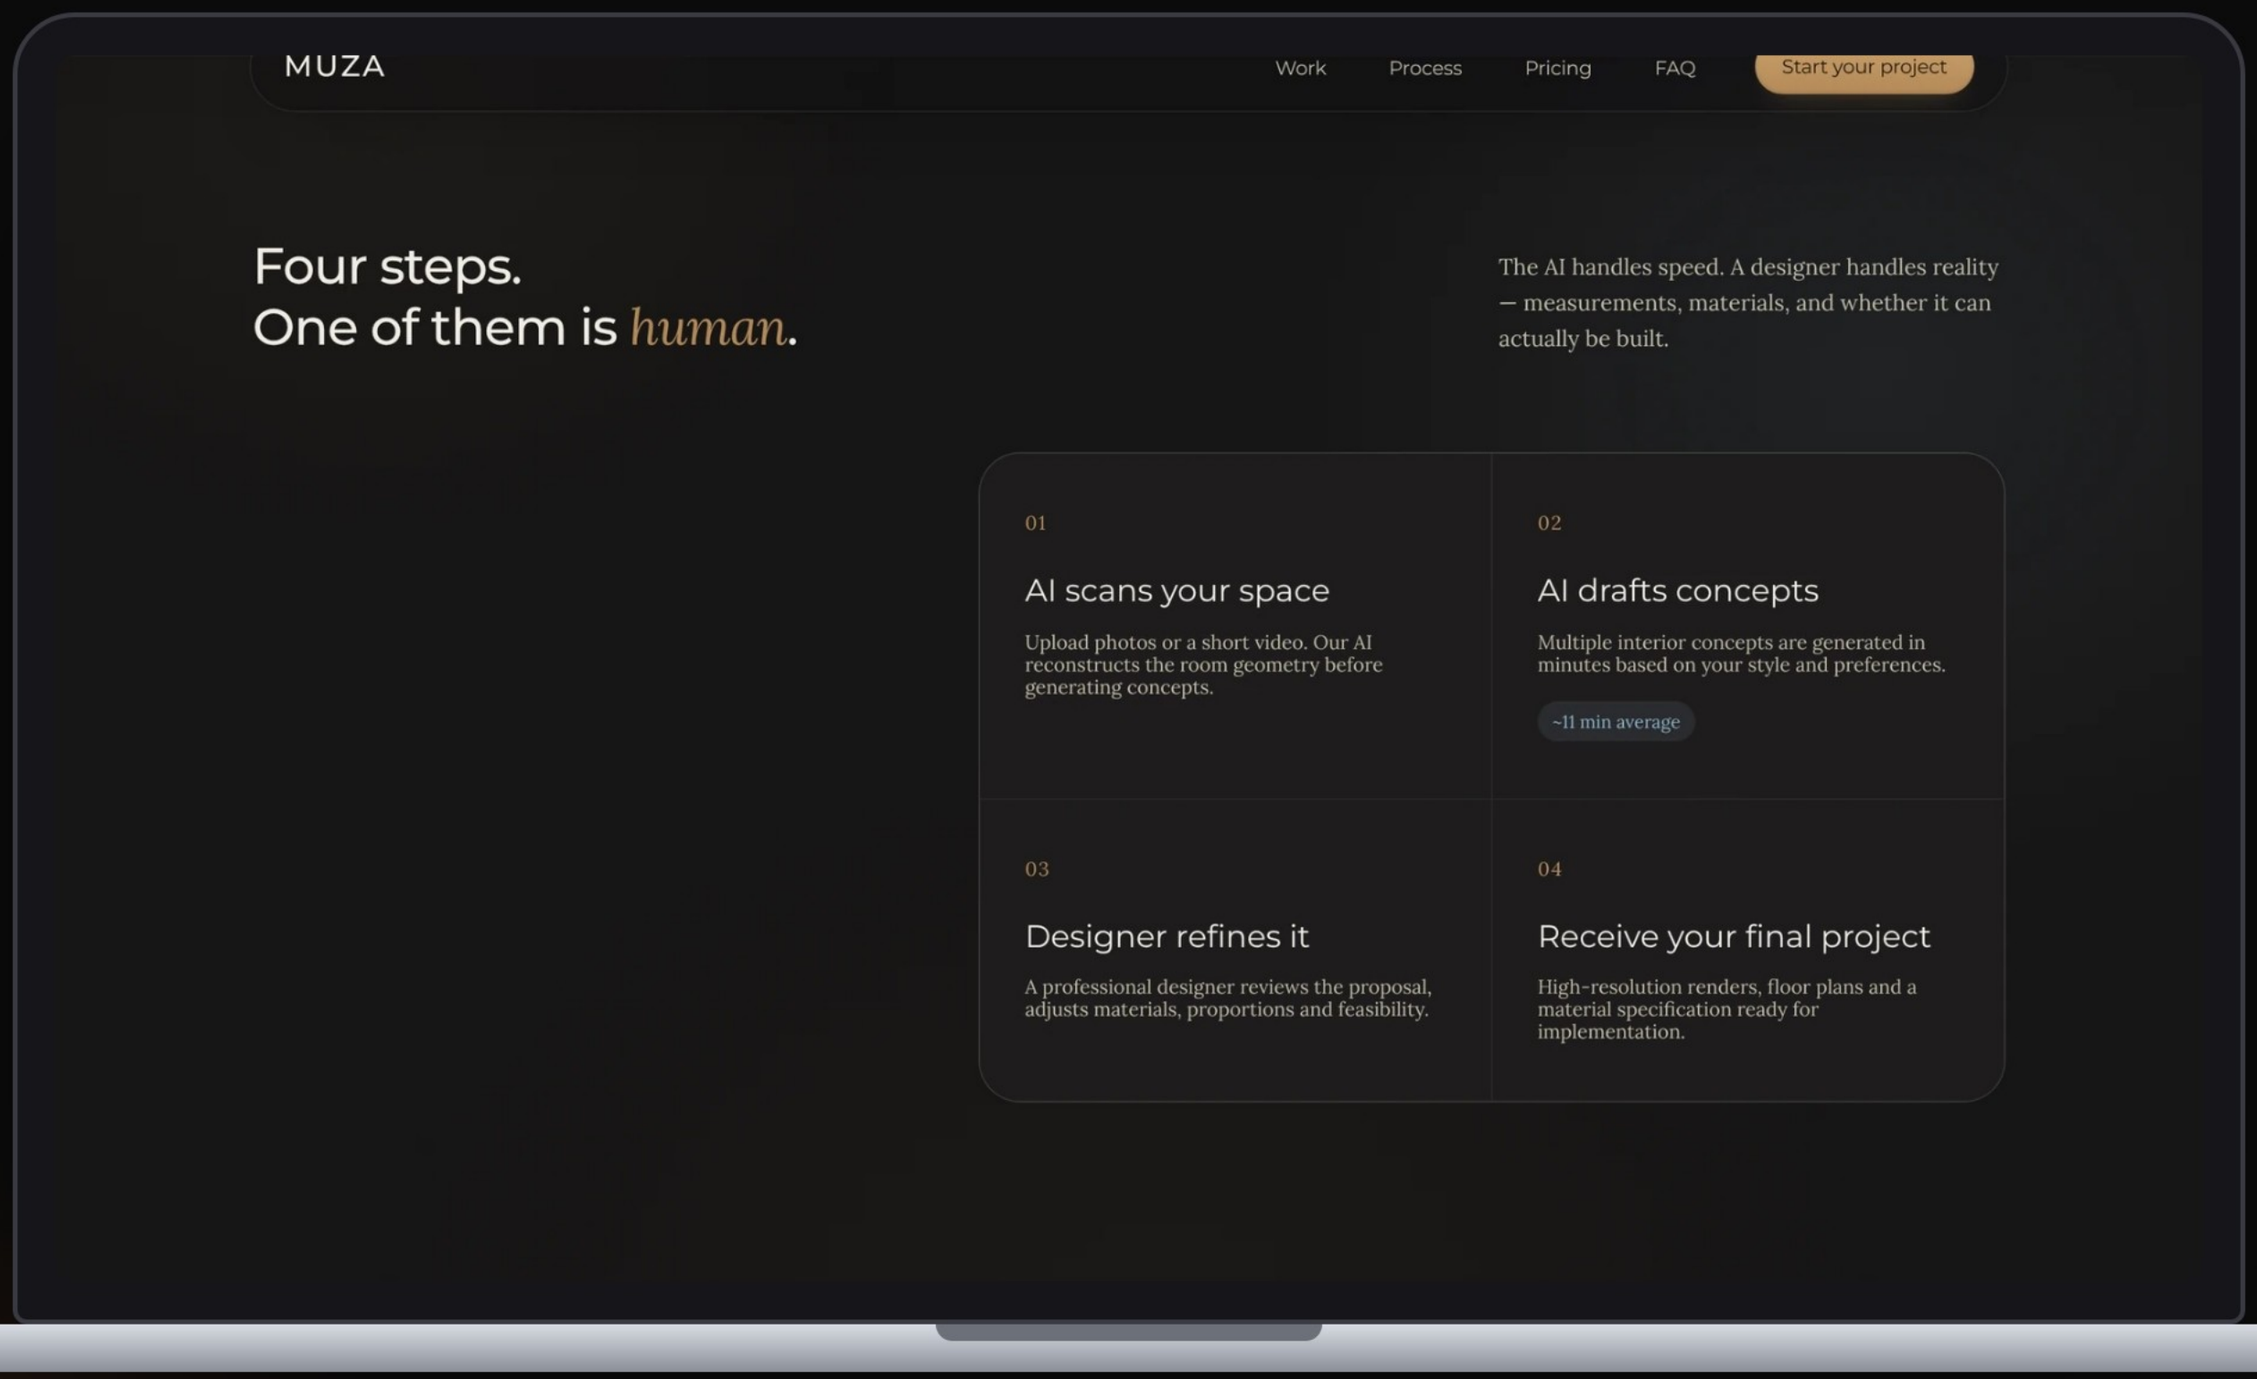

An AI-assisted interior design service, finished by designers.

THE CHALLENGE

FAST, BUT BUILDABLE

AI-only interior tools make attractive pictures that ignore real rooms. The page sells speed without hiding the human step.

PRICING

ONE FLAT PRICE PER ROOM

Three tiers with a highlighted middle plan, so the decision stays simple.

MUZA

Work Process Pricing FAQ Start your project

Clear pricing.
No hourly *surprises*.

One flat price per room, agreed before any designer time is spent.

CONCEPT

€49

AI visualization only

- 3 AI-generated design directions
- Delivered as a PDF moodboard
- No designer review
- Turnaround: under 1 hour

Choose Concept

MOST BOOKED

PROJECT

€349

Full design, ready to build

- Everything in Concept
- Designer refinement of your chosen direction
- Scaled floor plan & final renders
- Materials list with prices and suppliers
- Turnaround: 4–6 days

Choose Project

FULL SERVICE

From €790

Project + renovation support

- Everything in Project
- Contractor coordination
- Two on-site or video check-ins
- Priced per room after a short call

Talk to us

CONVERSION

ONE SHORT REQUEST FORM

Every call to action opens the same form: name, email and photos of the room.

DESIGN DECISIONS

- Make the AI and human split the story
- Prove it with a before/after slider after the hero
- One flat price per room
- A single, forgiving conversion path
- Warm dark palette, one copper accent, reduced-motion fallback

HONEST SCOPE

A FRONT-END PROTOTYPE

The request form does not submit anywhere yet and the page does not generate concepts.

Next: connect the form, unify contact details, add real project imagery.
